TRADE RETURNS - OUR PROCEDURE

Our decision, or that of the manufacturer or its warranty claims section acting as agent for the manufacturer’s distributor, as to the condition of returned items and whether that condition constitutes a valid warranty claim, is final. Items returned by us under warranty take significant time to come back to us.

There are three ‘tracks’ for returns and you will be asked to choose one of them:

Dead out of the box (DoA)	Failure in use	
	Advance Replacement Track	Without Advance Replacement Track
<p>Advance replacement is automatic provided we receive your request within 7 days of the item’s receipt at your address. DOA terms do <i>not</i> apply if we are not immediately notified of the item’s non-working condition on its receipt. Evidence on testing that the item was working on receipt will be dealt with as Failure in Use.</p> <p>Email us with the item type, serial number and the invoice number on which it was supplied. We will email a Returns Form and RMA Number which must be completed and returned with the unit: no returns will be accepted without this form.</p> <p>Advance replacement sent immediately (subject to stock – or at the earliest opportunity when stock becomes available).</p> <p>Item and carriage will <u>not</u> be charged for on a genuinely DoA item.</p>	<p>Advance replacement requested by Customer by email, providing the item type, serial number and the invoice number on which it was supplied. If this is to be an <i>advance</i> replacement tell us in the email so we can arrange immediate despatch.</p> <p>We will email a Returns Form and RMA Number which must be completed and returned with the unit: no returns will be accepted without this form.</p> <p>Advance replacement sent immediately (subject to stock – or at the earliest opportunity when stock becomes available).</p> <p>Note: the Advance replacement and carriage <u>will be charged for at this stage.</u></p>	<p>No advance replacement requested.</p> <p>Email us with the item type, serial number and the invoice number on which it was supplied. We will email a Returns Form and RMA Number which must be completed and returned with the unit: no returns will be accepted without this form.</p>
